

FIDDLEWOOD RESERVE UPGRADE

Light Regional Council is pleased to announce that it will commence an upgrade to the Fiddlewood Reserve on Fiddlewood Drive at Freeling in the coming weeks. The reserve improvements will include a path around the perimeter of the drainage basin with links to Fiddlewood Drive, Heinrich Road, Lacebark Court and Sugargum Place. A BMX track will be formed suitable for bike use with a basketball hoop nearby.

Whilst the aim is to maintain the native aspect of the reserve, the works will be complimented by an area of irrigated lawn, additional shade trees and further native plantings.

Subject to final costs, a drinking fountain, shelter and seating will also be provided.

These works and the improved stormwater drainage works that were undertaken a few years ago have been funded from the proceeds of the sales of building allotments that were created adjacent to the reserve.

The works are estimated to cost \$100,000 and will commence in February 2020.

For further information on these works, enquiries should be directed to Council's Property & Facilities Manager, Ms Megan Renzella on 8525 3200 or via email at light@light.sa.gov.au.
