1. Purpose

The Light Regional Public Library Service ('the Library') selects materials and develops collections in many different formats, including digital, to provide Light Regional residents with a wide range of informational, recreational and educational resources which are easily accessible. The Library will acquire materials reflecting the full diversity of points of view on topics of interest to the public, therefore, items in the collection will not necessarily appeal to all community tastes and interests. The collection development process will give consideration to the current and anticipated needs of the community.

2. Policy

- 2.1 One objective of the Library is to select, organise, preserve and make freely available materials that help individuals and groups in the community to:
 - Pursue continuing education;
 - Develop their creativity;
 - Become more responsible members of the community;
 - Enhance their skills in their employment;
 - Enhance their leisure time;
 - Obtain needed information.
- 2.2 The Library provides materials and services to residents of all ages. It seeks to stimulate life-long learning by offering a carefully selected collection of materials and skilled professional guidance in their use.
- 2.3 In its selection of materials the Library endorses the Statement on free access to information (<https://alia.org.au/about-alia/policies-standards-and-guidelines/statement-free-access-information>) as adopted by the Australian Library and Information Association (ALIA).
- 2.4 The Library adheres to Section 4 of the LMS Operations Guide – Collection Policy, which outlines the South Australian Public Library network's agreements on standards for library collections.
- 2.5 The Library will challenge censorship of any materials in order to provide complete and accurate information on all sides of an issue, and to foster a climate of intellectual freedom for ratepayers.

- 2.6 The final responsibility for material selection lies with the Library Services Manager. The responsibility for initial selection of materials is shared by all members of the staff. Recommendations from the public for specific titles or subject areas are welcomed and encouraged but the decision on whether to purchase these materials will be made by the relevant staff member in-line with this policy.
- 2.7 Challenges regarding specific materials will be reviewed upon written request. A form for this purpose may be requested from the Library Services Manager.
- 2.8 The Library will not promote specific beliefs or views, but will provide enough suitable material to enable the public to make informed and intelligent decisions.
- 2.9 Materials judged to be of lasting value will be added to the collection. Those materials meeting present and anticipated user interests may also be provided.
- 2.10 Selection of materials may be influenced by many factors, including but not limited to the following:
- Budgetary considerations;
 - Physical limitations of the Library buildings;
 - Suitability of the format;
 - Availability of specialised materials in other local libraries;
 - Availability of material through the state-wide One Card Library System or interlibrary loan;
 - The need for added materials in subject areas;
 - The special needs of library patrons for materials in accessible formats;
 - Existing library holdings;
 - Individual merit of each item;
 - Physical condition of the material.
- 2.11 Occasionally the Library receives donations of materials with the understanding that they will be evaluated using the same criteria as those applied to purchased materials. If the donations do not meet these criteria, the Library reserves the right to refuse or dispose of them as it sees fit.
- 2.12 The Library collection will be kept attractive and current by a continual programme of repairing, deselecting or replacing of worn and outdated material. This will be aligned with the South Australian Public Library network's weeding programme.
- 2.13 Materials may be reallocated between branches of the library to increase the exposure of the collections to the community.
- 2.14 Public libraries are not libraries of last resort, collection and holding material indefinitely. In order to maintain a collection of materials that best serves the community the library must periodically withdraw library materials from the collection to make way for new items. Library materials have a limited useful life after which they must be disposed of.

Categories to be considered for deselecting materials includes:

- worn or damaged items;
- 'read out' items;
- out-of-date materials/information;
- items that no longer meet the needs of the community;
- availability of information in other formats which may better serve the same purpose;
- availability of similar material or additional copies in the collection;
- space restrictions may necessitate removal of some materials.

Library materials selected for withdrawal from the collections will be disposed of as follows:

- sold to the public via book sales;
- donated for use in aged care facilities, women's shelters, prisons, homeless shelters, and any other community organization deemed appropriate;
- overseas donation of selected materials;
- donated to other libraries;
- given to local charities; or
- if they have reached the end of their practicable life the items will be sent for recycling.

2.15 Plans for the development of specific collections (ie Local History) may be written by library staff as needed. These plans may outline selection and acquisition procedures, reviewing tools and maintenance of the specific collections. All such plans shall be in compliance with this policy.
